### Abstract

The Order Siphonaptera comprises cosmopolitan haematophagous ectoparasites of birds and mammals. More than ten years have past since the last list of species known for Argentina. Herein we provide a review of the fleas from the country, which includes an updated list, host species and geographical distribution for each taxa, as well as some comments. We report 127 species and subspecies belonging to eleven different families; 42 of these species are endemic. Four genera (*Adoratopsylla*, *Cleopsylla*, *Ctenidiosomus*, and *Nonnapsylla*) and six species and subspecies (*Adoratopsylla* (*Adoratopsylla antiquorum* *antiquorum*, *Agastopsylla pearsoni*, *Polygenis* (*Polygenis roberti beebei*, *Plocopsylla* (*Plocopsylla silewi*, *Plocopsylla* (*Plocopsylla wilesi* and *Tunga terasma*) are added to the list for Argentina. Nine species new to science are included, described on the bases of specimens collected from Argentina (*Ctenidiosomus austrinus*, *Ectinorus* (*Ectinorus lareschiae*, *Ectinorus* (*Ectinorus spiculatus*, *Ectinorus* (*Ectinorus morenoi*, *Hectopsylla narium*, *Plocopsylla* (*Plocopsylla linardii*, *Neotyphloceras crackensis*, *Neotyphloceras pardinasii* and *Tunga perforans*). Information provided herein contributes to the knowledge of the fleas from Argentina, necessary to a better understanding of their role as parasites themselves and vectors of zoonotic importance.

**Key words:** Siphonaptera, fleas, review, Argentina

### Introduction

Siphonaptera, or fleas, comprise a cosmopolitan order of highly specialized holometabolous insects. Morphologically, fleas are unique, unlikely to be confused with any other ectoparasitic arthropods. Adults are blood-sucking parasites of birds and mammals, while eggs, larvae and pupae occur in soil or nests of the hosts. Fleas are monophyletic, and evolutionarily, they originated as parasites of mammals and subsequently colonized birds. Small mammals, mainly cricetid rodents, contain the major percentage of species and subspecies. Molecular studies indicate that while some families of the order are paraphyletic, others are monophyletic (Marshall 1981; Whiting *et al.* 2008).

From an epidemiological point of view, fleas are important as parasites, as host intermediaries, as reservoirs and as vectors of bacteria, protozoa and helminths. Numerous species of fleas can bite humans and pets as alternative hosts. The bite causes irritation with grouped papules, and in people with allergies lesions may be more severe, with lacerations and alopecia. Fleas not only can transmit diseases to humans, but scratching can lead to bacterial superinfection (Linardi & Guimarães 2000).

Of the nearly 2700 species and subspecies placed in 16 families that are currently known worldwide (Lewis 1998; Whiting *et al.* 2008), 280 were cited from the Andean and Neotropical Biogeographic Regions (*sensu* Morrone 2006) (Linardi & Guimarães 2000). Of these, more than 100 were recorded from Argentina by Autino & Lareschi (1998), who revised the species and subspecies of fleas recorded from Argentina, including their geographical distribution by province and a list of known hosts for each species and subspecies. Beaucournu &

Castro (2003) updated the list including new species and subspecies, but considering only their geographical distribution including localities when available.

More than 10 years have passed from the last revision. New species have been recorded from the country. Others new to science, have been described. In addition, taxonomic changes have taken place for some taxa. To aid in further studies of fleas as parasites themselves, and in their role in the transmission of pathogens, herein we present a revision of the fleas from Argentina, which includes an updated list, host species and geographical distribution for each taxon, as well as some comments.

## Material and methods

The current classification of Siphonaptera is based on Whiting *et al.* (2008). For each species and subspecies we have mentioned, when available: place of deposition of the holotype (see acronyms below), type locality, type host, known distribution and hosts. Localities and hosts are mentioned only for Argentina, and when they differ from the types. Localities are arranged alphabetically according to provinces. Hosts are arranged alphabetically according to class, order and family. Names of host species were checked and updated. Main references are mentioned only when they are not included in anterior catalogues. Comments are added when necessary.

Acronyms of Biological Collections are as follows: CML: Anexos de la Colección Mamíferos Lillo (Universidad Nacional de Tucumán-Fundación Miguel Lillo), Tucumán, Argentina; CNC: Canadian National Collection, Ottawa; DEI: Deutsches Entomologisches Institut, Müncheberg, Germany; FMR (MNHN): Faculté de Médecine de Rennes, Laboratoire d'Entomologie du Muséum National d'Histoire Naturelle de Paris, France; FMNH: The Field Museum of Natural History, Chicago; INMM: Instituto Nacional de Microbiología C. G. Malbran, Buenos Aires; IOC: Instituto Oswaldo Cruz, Brazil; MACN: Museo Argentino de Ciencias Naturales "Bernardino Rivadavia", Buenos Aires; MHNG: Muséum d'Histoire Naturelle, Geneva; MLP: Colección de Entomología del Museo de La Plata, La Plata, Buenos Aires; NHM: British Museum (Natural History), London; NMNH: National Museum of Natural History, Washington, D.C.; STMSJ: School of Tropical Medicine, San Juan, Puerto Rico; ZMB: Zoologisches Museum der Humboldt Universität, Berlin; ZMH: Zoologisches Museum, Hamburg.

## Family Ceratophyllidae

### *Ceratophyllus (Ceratophyllus) altus* Tipton & Mendez, 1966

NMNH. Panamá—Chiriquí: about five miles beyond Cerro Punta on the Boquete Trail. Aves—Strigiformes—Strigidae—*Glaucidium jardinii*. Chile; Mexico; Panamá; Argentina—Río Negro: El Bolsón. Aves—Piciformes—*Colaptes pitius*.

### *Dasypyllus (Avesopsylla) lasius lasius* (Rothschild, 1909)

NHM. Argentina—Buenos Aires: Foot of Sierra de la Ventana. Aves—Passeriformes—Hirundinidae—*Notiochelidon cyanoleuca*. Argentina—Tierra del Fuego, Antártida e Islas del Atlántico Sur: Ushuaia. Aves—Passeriformes—Hirundinidae—*Tachycineta meyenii*. Aramburú *et al.* (2009).

### *Dasypyllus (Neornipsyllus) araucanus* (Jordan & Rothschild, 1920)

NHM. Chile—Cautín: Temuco. Aves—Passeriformes—Tyrannidae—*Xolmis pyrope*. Chile; Argentina—Neuquén. Río Negro: J.L. Roca. Aves—Passeriformes—Furnariidae—*Asthenes* sp. (nest). Mammalia—Rodentia—Cricetidae—*Abrothrix olivacea*. Hastriter & Schlatter (2006).

### *Dasypyllus (Neornipsyllus) comatus* Jordan, 1933

NHM. Argentina—Tierra del Fuego, Antártida e Islas del Atlántico Sur: Estancia Viamonte. Aves—Charadriiformes—Charadriidae—*Vanellus chilensis*. Chile; Argentina—Tierra del Fuego, Antártida e Islas del Atlántico Sur: Isla del Rosario, Islas Malvinas. Aves—Passeriformes—Furnariidae—*Asthenes anthoides*, *Cinclodes antarcticus*. Hastriter & Schlatter (2006).

***Dasypyllus (Neornipsyllus) ctenopius* Jordan & Rothschild, 1920**

NHM. Chile—Cautín: Temuco. Aves—Passeriformes—Formicariidae—*Scytalopus magellanicus*. Chile; Argentina—Neuquén: La Angostura. Río Negro: Piltriquitrón near El Bolsón. Mammalia—Rodentia—Cricetidae—*Abrothrix olivacea*. Hastriter & Schlatter (2006).

***Dasypyllus (Neornipsyllus) stejnegeri* (Jordan, 1929)**

NMNH . Union of Soviet Socialist Republics—Bering Id, Rossiyskaya SFSR. Unrecorded host. Chile (uncertain data); Peru; United States of America; Argentina—Santa Cruz: Lago Argentina. Tierra del Fuego, Antártida e Islas del Atlántico Sur: Estancia Viamonte, Puerto Argentino and Isla Soledad (Islas Malvinas). Aves—Charadriiformes—Charadriidae—*Vanellus chilensis*. Passeriformes—Furnariidae—*Asthenes anthoides*. Icteridae—*Sturnella loyca*. Passeridae—*Passer domesticus*. Turdidae—*Turdus falcklandii*. Hastriter & Schlatter (2006) considered *Dasypyllus (N.) aemulus* Jordan, 1933 a junior synonym of *D. (N.) stejnegeri*.

***Nosopsyllus (Nosopsyllus) fasciatus* (Bosc d'Antic, 1800)**

Lost. Mammalia—Rodentia—Gliridae—*Myoxus nitela* (= *Eliomys quercinus*). Cosmopolitan. Argentina—Buenos Aires. Córdoba. Jujuy. Neuquén: Calle de la ciudad, Calle América del Sur. Río Negro: Bariloche. Santa Fe. Tierra del Fuego, Antártida e Islas del Atlántico Sur: Islas Malvinas. Mammalia—Didelphimorphia—Didelphidae—*Thylamys* sp. Rodentia—Cricetidae—*Abrothrix hirta*, *Abrothrix olivacea*, *Akodon dolores*, *Akodon* sp., *Oligoryzomys longicaudatus*. Muridae—*Rattus novergicus*, *Rattus rattus*. Sanchez & Lareschi (2013).

***Nosopsyllus (Nosopsyllus) londinensis londinensis* (Rothschild, 1903)**

Lost. England—London: South Kensington. Rodentia—Muridae—*Mus musculus*. Ecuador; Peru; Argentina—Buenos Aires. Río Negro. Mammalia—Rodentia—Cricetidae—*Abrothrix hirta*, *Abrothrix olivacea*. Muridae—*Rattus norvegicus*, *Rattus rattus*.

**Family Ischnopsyllidae**

***Alectopsylla unisetosa* Manhert, 1976**

MHNG. Argentina—Chubut: El Hoyo de Epuyén. Mammalia—Chiroptera—Vespertilionidae—*Myotis aff. levis*.

***Hormopsylla fosteri* (Rothschild, 1903)**

NHM. Paraguay—Sapucay. Mammalia—Chiroptera—Molossidae—*Nyctinomops laticaudatus*. Paraguay; Venezuela; Argentina—Córdoba: Embalse Río Tercero. Tucumán: San Miguel de Tucumán. Mammalia—Chiroptera—Molossidae—*Eumops perotis*.

***Myodopsylla isidori* (Weyenbergh, 1881)**

NHM. Argentina—unknown locality. Mammalia—Chiroptera—Vespertilionidae—*Myotis albescens*. Chile; Argentina—Buenos Aires: Chivilcoy, Monasterio. Catamarca: La Banderita, La Puerta. Córdoba: Capital, Iglesia Catedral. Corrientes. Entre Ríos. Jujuy: Jaire, Tiraxi, Río Las Capillas, and Yala. La Rioja: Sumampa. Neuquén: Ahuca Mahuida. Río Negro: Río Colorado. San Luis: Zapallar. Salta: Pampa Grande, Potrerillos, Río de Los Sauces. Santiago del Estero. Tucumán: Aguas Chiquitas, Arroyo Mista, Dique Escaba, Dique San Ignacio, Parque Provincial El Cochuna, Reserva Provincial Aguas Chiquitas, Reserva Provincial Santa Ana. Mammalia—Chiroptera—Molossidae—*Tadarida brasiliensis*. Vespertilionidae—*Myotis dinelli*, *Myotis keaysi*, *Myotis nigricans*, *Myotis riparius*, *Myotis* sp. Autino et al. (2009).

***Myodopsylla wolffsohni wolffsohni* (Rothschild, 1903)**

NHM. Paraguay—Paraguarí: Tacuaras. Mammalia—Chiroptera—Molossidae—*Myotis albescens*. Brazil; Chile; Mexico; Paraguay; Uruguay; Argentina—Corrientes: Estancia San Juan Porahú. Entre Ríos: Brazo Largo (Delta del Paraná). Salta: Río El Naranjo. Tucumán: San Miguel de Tucumán. Mammalia—Chiroptera—Molossidae—*Eumops perotis*. Vespertilionidae—*Myotis albescens*, *Myotis chiloensis*. Claps & Autino (2012). *Myotis chiloensis* is not known to occur in the Argentinean provinces mentioned above. Probably the host was misidentified, and may be *Myotis albescens*.

***Sternopsylla distincta distincta* (Rothschild, 1903)**

NHM. Paraguay—Villa Rica. Unknown host. Brazil—Paraná: Curitiba. Mammalia—Chiroptera—Molossidae—*Molossus molossus*. Brasil; Chile; Ecuador; Paraguay; Argentina—Buenos Aires: Bonifacio. Corrientes. Mendoza. Mammalia—Chiroptera-Molossidae—*Tadarida brasiliensis*.

***Sternopsylla distincta speciosa* Johnson, 1957**

FMNH. Peru—Cuzco: Quince Mil. Mammalia—Chiroptera—*Tadarida brasiliensis*. Colombia; Paraguay; Peru; Panama; Venezuela; Argentina—Buenos Aires: Estancia San José, Santa Clara del Mar. Catamarca: El Rodeo. Jujuy: Río Tiraxi, San Salvador de Jujuy. Mendoza: Santa Rosa. Salta: Rosario de La Frontera. Tucumán: Dique Escaba, Dique San Ignacio (La Cocha), San Miguel de Tucumán. Mammalia—Chiroptera—Vespertilionidae—*Myotis albescens*, *Myotis* sp.; Molossidae—*Tadarida brasiliensis*, *Tadarida* sp. Autino *et al.* (2005).

**Family Leptopsyllidae**

***Leptopsylla (L.) segnis* (Schönherr, 1811)**

Lost. Unknown. Cosmopolitan. Argentina—Buenos Aires: Puerto. Jujuy. Santa Fe: Rosario. Mammalia-Rodentia—Muridae—*Rattus rattus*, *R. norvegicus*.

**Family Ctenophthalmidae**

***Adoratopsylla (Adoratopsylla) antiquorum antiquorum* (Rothschild, 1904)**

NHM. Brazil—Tigneti Zech. Mammalia—Didelphimorphia—Didelphidae—*Didelphis aurita*. Brazil; Venezuela (uncertain data); Argentina—Misiones: Parque Provincial Urugua-í. Mammalia—Rodentia—Cricetidae—*Abrawayaomys chebezi*. Pardiñas *et al.* (In press).

***Adoratopsylla (Tritopsylla) intermedia intermedia* (Wagner, 1901)**

Unknown. Paraguay. Type host unknown. Brazil; Ecuador; Paraguay; Peru; Venezuela; Argentina—Jujuy: Tilcara, Calilegua. Salta: Orán. Tucumán: La Cocha, Tafí Viejo, Monteros. Mammalia—Didelphimorphia—Didelphidae—*Lutreolina massoi*, *Micoureus constantiae*, *Thylamys* cf. *cinderella*, *Th. sponsorius*, *Thylamys* sp. Rodentia—Cricetidae—*Phyllotis osilae*. Lareschi *et al.* (2010).

***Agastopsylla boxi boxi* Jordan & Rothschild, 1923**

NHM. Argentina—Chubut: Leleque. Mammalia—Rodentia—Cricetidae—*Abrothrix hirta*. Chile; Argentina—Chubut: Cañadón de la Madera, Sierra de Tepuel, Carhué Niyeu, Estancia El Maitén, Establecimiento Gorro Frigio, Pico Salamanca. Neuquén: PN Arrayanes. Río Negro: Bariloche, Laguna Blanca. Santa Cruz: Pali Aike, Puerto Santa Cruz. Mammalia—Rodentia—Cricetidae—*Abrothrix olivacea*, *Akodon iniscatus*, *Euneomys chinchilloides*, *Eligmodontia morgani*, *Geoxus valdivianus*, *Graomys griseoflavus*, *Loxodontomys micropus*, *Phyllotis xanthopygus*, *Reithrodon auritus*. Sanchez & Lareschi (2013; 2014).

***Agastopsylla boxi gibbosa* Beaucournu & Alcover, 1990**

FMR (MNHN). Argentina—Neuquén: Lago Huechulafquen. Mammalia—Rodentia—Cricetidae—*Abrothrix hirta*. Chile; Argentina—Neuquén: Cerro Chapelco, Lago Norquinco, Río Alumine, Río Curruhue, Río Quilquihue. Mammalia—Rodentia—Cricetidae—*Abrothrix olivacea*, *Loxodontomys micropus*, *Oligoryzomys longicaudatus*.

***Agastopsylla pearsoni* Traub, 1952**

NHM. Peru—Puno: Picotani. Mammalia—Rodentia—Cricetidae—*Chinchillula sahamae*. Peru; Chile; Argentina—Salta: Chicoana. Mammalia—Rodentia—Cricetidae—*Phyllotis osilae*. López Berrizbeitia *et al.* (2013).

***Chilioptylla allophylla allophylla* Rothschild, 1915**

NHM. Chile—Temuco. Mammalia—Microbiotheria—Microbiotheriidae—*Dromiciops gliroides*. Chile;

Argentina—Río Negro. Mammalia—Microbiotheria—Microbiotheriidae—*Dromiciops gliroides*. Rodentia—Cricetidae—*Abrothrix hirta*, *Abrothrix olivacea*, *Chelemys macronyx*, *Irenomys tarsalis*, *Loxodontomys micropus*, *Oligoryzomys longicaudatus*. Octodontidae—*Aconaemys* sp.

***Chiliopsylla allophyla tonnii Beaucournu & Alcover, 1990***

***Plocopsylla (Schrammapsylla) chiris* (Jordan, 1931)**

NHM. Argentina—Río Negro: Pilcaniyeu. Mammalia—Cricetidae—*Phyllotis xanthopygus*.

***Plocopsylla (Schrammapsylla) consobrina* Beaucournu & Alcover, 1990**

FMR (MNHN). Argentina, Neuquén: Ruca Malen, PN Nahuel Huapi. Mammalia—Rodentia—Cricetidae—*Abrothrix hirta*. Chile; Argentina—Neuquén: Curruhue Grande, Pampa de Hui Hui.

***Plocopsylla (Schrammapsylla) diana* Beaucournu, Gallardo & Launay, 1986**

FMR (MNHN). Chile—Palomar, Chiloe. Mammalia—Paucituberculata—Caenolestidae—*Rhyncholestes raphanrus*. Chile; Argentina—Neuquén: Cerro Chapelco, Hua Hum, Lago Curruhue, Lago Huechulafquen, Lago Lolog, Laguna Verde, Ruca Malen. Mammalia—Microbiotheria—Microbiotheriidae—*Dromiciops gliroides*. Rodentia—Cricetidae—*Abrothrix hirta*.

***Plocopsylla (Schrammapsylla) kasagonaga* Schramm & Lewis, 1988**

NHM. Argentina—Mendoza. Mammalia—Rodentia—Cricetidae—*Graomys griseoflavus*. Argentina—Río Negro: Pilcaniyeu. Mammalia—Rodentia—Cricetidae—*Phyllotis xanthopygus*.

***Plocopsylla (Schrammapsylla) reigi* Beaucournu & Gallardo, 1978**

FMR (MNHN). Chile—Malleco, Lonquimay. Mammalia—Rodentia—Ctenomyidae—*Ctenomys maulinus*. Chile; Argentina—Río Negro. Mammalia—Rodentia—Cricetidae—*Abrothrix olivacea*, *Oligoryzomys longicaudatus*.

***Plocopsylla (Schrammapsylla) traubi* Del Ponte, 1968**

INMM. Argentina—Buenos Aires: Delta del Paraná, Otamendi. Mammalia—Rodentia—Cricetidae—*Oxymycterus rufus*.

***Plocopsylla (Schrammapsylla) wolffsohni* (Rothschild, 1909)**

NHM. Chile—Valparaíso. Mammalia—Rodentia—Cricetidae—*Abrothrix hirta*. Chile; Argentina—Neuquén: Cerro Chapelco, Lago Curruhue, Lago Norquinco, Lago Quillen, Laguna Verde, Ruca Malen. Río Negro: San Carlos de Bariloche. Mammalia—Rodentia—Cricetidae—*Abrothrix hirta*, *Abrothrix olivacea*, *Akodon* sp., *Euneomys* sp., *Irenomys tarsalis*, *Oligoryzomys longicaudatus*.

***Sphinctopsylla ares* (Rothschild, 1911)**

NHM. Chile—Temuco. Mammalia—Rodentia—Cricetidae—*Abrothrix olivacea*. Chile; Argentina—Chubut: Cañadón de la Madera, Sierra Tepuel, Ea. Leleque, Lago Blanco. Neuquén: Aguas calientes, Domuyo, Pla. Quetrihué. Río Negro: Bariloche. Santa Cruz: Ea. La Ensenada, Pali Aike. Tierra del Fuego, Antártida e Islas del Atlántico Sur: Margen derecha del Aº Buena Esperanza. Mammalia—Rodentia—Cricetidae—*Abrothrix hirta*, *Abrothrix olivacea*, *Akodon dolores*, *Euneomys chinchilloides*, *Geoxus valdivianus*, *Oligoryzomys longicaudatus*, *Phyllotis xanthopygus*. Muridae—*Rattus* sp. Sanchez *et al.* (2009), Sanchez & Lareschi (2013; 2014).

***Sphinctopsylla mars* (Rothschild 1898)**

NHM. Argentina—Tierra del Fuego, Antártida e Islas del Atlántico Sur: Ushuaia Bahía, San Sebastián. Mammalia—Rodentia—Cricetidae—*Abrothrix olivacea*. Argentina—Tierra del Fuego, Antártida e Islas del Atlántico Sur: Ushuaia Bahía, San Sebastián. Mammalia—Rodentia—Cricetidae—*Abrothrix olivacea*, *Calomys* sp.

***Tiarapsylla argentina* Jordan, 1942**

NHM. Argentina—Mendoza: San Rafael. Mammalia—Rodentia—Ctenomyidae—*Ctenomys mendocinus*. Argentina—Chubut: Carhué Niyeu. Jujuy. La Pampa. Mendoza: San Rafael, Malargüe. Santa Fe. Tucumán. Mammalia—Rodentia—Caviidae—*Microcavia australis*. Cricetidae—*Reithrodon auritus*. Sanchez & Lareschi (2014).

**Family Malacopsyllidae**

***Malacopsylla grossiventris* (Weyenbergh, 1879)**

NHM. Argentina—unknown locality. Mammalia—Xenarthra—Dasypodidae—*Zaedyus pichiy*. Argentina—Buenos Aires: San Adolfo (estancia) near Hilario Ascasubi. Catamarca: El Quimilo Road, Los Nacimientos. Chaco. Chubut: Puerto Lobos. Córdoba. Jujuy: Quinta, San Pedro. La Pampa. Mendoza: La Paz, Puesto La Carpa, Puesto Pugin, Santa Rosa. Salta. San Luis: Don Roberto. Santa Cuz. Santiago del Estero: Icaño. Tucumán: Taco Ralo, Yerba Buena. Mammalia—Carnivora—Canidae: *Canis familiaris*, *Cerdocyon thous*, *Lycalopex culpaeus*, *Lycalopex griseus*. Mephitidae—*Conepatus chinga suffocans*. Rodentia—Caviidae—*Microcavia australis*, «conejo». Xenarthra—Dasypodidae: *Dasyurus* sp., *Zaedyus pichiy*, *Tolypeutes matacus*, *Chaetophractus vellerosus*, *Chaetophractus villosus*, *Euphractus sexcinctus*. Lareschi *et al.* (2010), Ezquiaga & Lareschi (2012).

***Phthiropsylla agenoris* (Rothschild, 1904)**

NHM. Argentina—Córdoba: Cruz del Eje. Mammalia—Xenarthra—Dasypodidae—*Dasyurus* sp. Argentina—Buenos Aires: Bahía Blanca, Cañada Mariano, Médanos. Catamarca: Santa María. Chubut: Colhué Huapi, Río Mayo. Córdoba: Cruz del Eje. La Pampa. La Rioja. Mendoza: La Paz, Las Catitas, Médanos, Puesto La Carpa, Puesto Pugin, San Rafael, Santa Rosa. Neuquén. Río Negro: Fortín Uno. Salta: Los Médanos (Cafayate). San Juan: Las Casuarinas. San Luis. Santa Cruz: Río Santa Cruz. Tucumán: Yerba Buena. Mammalia—Carnivora—

Canidae—*Lycalopex* sp., *Lycalopex griseus*, *Cerdocyon thous*. Mephitidae—*Conepatus chinga suffocans*. Lagomorpha—Leporidae—*Lepus europaeus*. Rodentia—Caviidae—*Dolichotis patagonum*, *Galea musteloides*, *Microcavia australis*. Xenarthra—Dasypodidae—*Chaetophractus vellerosus*, *Chaetophractus villosus*, *Chaetophractus* sp., *Zaedyus pichiy*. Lareschi *et al.* (2010), Ezquiaga & Lareschi (2012).

## Family Pulicidae

### *Ctenocephalides canis* (Curtis, 1826)

Lost. Cosmopolitan. Argentina—Buenos Aires: Los Yngleses, Ajó. Entre Ríos: Delta del Paraná. Mammalia—Carnivora—Canidae—*Canis familiaris*. Didelphimorphia—Didelphidae—*Didelphis* sp. Felidae—*Felis catus*. Primates—Hominidae—*Homo sapiens*. Rodentia—Muridae—*Rattus* sp. Probably in all the country.

### *Ctenocephalides felis felis* (Bouché, 1835)

Lost. Cosmopolitan. Argentina—(some of the records): Buenos Aires: Los Yngleses, Ajó. Chaco: Gran Chaco. La Pampa. La Rioja. Santiago del Estero. Tucumán.

Mammalia—Artiodactyla—Cervidae—*Mazama americana*, *Mazama nana*. Didelphimorphia—Didelphidae—*Didelphis albiventris*, *Lutreolina crassicaudata*, *Didelphis* sp. Carnivora—Canidae—*Canis familiaris*, *Lycalopex gymnocercus*, *Lycalopex griseus*. Felidae: *Felis catus*, *Puma concolor*. Procyonidae—*Nasua nasua*. Rodentia—Cricetidae—*Graomys griseoflavus*. Muridae—*Rattus* sp. Primates—Hominidae—*Homo sapiens*. The distribution probably includes all the country. *Nasua narica* is not mentioned for Argentina, probably is *Nasua nasua*.

### *Pulex irritans* Linnaeus, 1758

NHM. Sweden—Uppsala. Mammalia—Primates—Hominidae—*Homo sapiens*. Cosmopolitan. Argentina: Buenos Aires: Ajó (General Lavalle), Bahía Blanca, Bonifacio, Cañada Mariano, La Plata, Los Yngleses. Catamarca: Chumbicha. Córdoba: Santa Eufemia. Chubut: Lago Epuyén. Formosa. La Rioja: Between Olta and Santa Rita de Catuna. Mendoza: Las Catitas, La Paz, Los Molles, Malargüe, San Rafael. Neuquén: Laguna del Rio Limay. Río Negro: Pilcaniyeu. Salta: El Quebrachal, Pica de Salta, Orán (Isla de Cañas). San Luis: Quines, San Luis. Santiago del Estero. Tucumán: Tucumán in a yard of a house. Mammalia—Artiodactyla—*Mazama americana*, *Mazama gouazoupira*. Didelphimorphia—Didelphidae—*Didelphis albiventris*, *Didelphis aurita*, *Didelphis* sp. Carnivora—Canidae—*Canis familiaris*, *Lycalopex griseus*, *Lycalopex gymnocercus*. Felidae—*Puma concolor* (in captivity). Mephitidae—*Conepatus humboldtii*, *Conepatus chinga*. Mustelidae—*Galictis cuja*. Procyonidae—*Nasua nasua* (in captivity). Lagomorpha—*Lepus europeus*, *Lepus* sp. Rodentia—Caviidae—*Dolichotis patagonum*, *Microcavia australis*. Chinchillidae—*Lagidium viscacia*, *Lagostomus maximus*. Ctenomyidae—*Ctenomys* sp. Cricetidae—*Graomys griseoflavus*. Muridae—*Mus musculus*. The association with *D. aurita* is uncertain; probably it corresponds to *D. albiventris*.

### *Xenopsylla cheopis cheopis* (Rothschild, 1903)

NHM. Sudan—Shendi. Mammalia—Rodentia—Muridae—*Acomys witherbyi*. Cosmopolitan. Argentina—Buenos Aires: Bahía Blanca, La Plata, Villa Fiorito. La Rioja. Mammalia—Didelphimorphia—Didelphidae—*Lutreolina crassicaudata*. Rodentia—Cricetidae—*Calomys laucha*. Echymyidae—*Proechimys decumanus*, *Proechimys* sp. Muridae—*Rattus rattus*, *Rattus norvegicus*. The genus *Proechimys* does not occur in Argentina (Patton *et al.* 2015, the hosts must be misidentified).

## Family Tungidae

### *Hectopsylla (Hectopsylla) broscus* Jordan & Rothschild, 1906

NHM. Argentina—Pampa Central. Mammalia—Carnivora—Mephitidae—*Conepatus chinga*. Argentina—Jujuy. Mendoza: San Rafael. San Luis: Don Roberto; “Southern Argentina”. Mammalia—Xenarthra—Dasypodidae—*Zaedyus pichiy*.

***Hectopsylla (Hectopsylla) cypha* Jordan, 1942**

NHM. Argentina—Mendoza: San Rafael. Mammalia—Rodentia—Caviidae—*Microcavia australis*. Chile; Argentina—La Rioja. Mendoza: Las Catitas, La Carpa, Santa Rosa. Río Negro: Fortín Uno. Tucumán. Mammalia—Rodentia—Cricetidae—*Graomys griseoflavus*. Octodontidae—*Octomys vivax*, *Typanoctomys barrerae*.

***Hectopsylla (Hectopsylla) gemina* Jordan, 1939**

NHM. Argentina—Río Negro: Fortin Uno. Mammalia—Rodentia—Caviidae—*Microcavia australis*. Chile; Argentina—Buenos Aires. La Pampa. Mendoza: La Paz, Las Catitas, San Rafael, Santa Rosa. San Juan. Santiago del Estero. Mammalia—Rodentia—Caviidae—*Cavia* sp., *Galea musteloides*. Cricetidae—*Graomys griseoflavus*.

***Hectopsylla (Hectopsylla) gracilis* Mahnert, 1982**

MHNG. Argentina—Chubut: Puerto Madryn. Mammalia—Rodentia—Cricetidae—*Eligmodontia morgani*. Argentina—Chubut: Bahía Cracker, Bajo Los Huesos, Cabo Raso, Cañadón de la Madera, Tepuel, Gorro Frigio, Isla Escondida, El Capricho, El Torito, Pico Salamanca, Puerto Piojo. Jujuy: Tumbaya, Salar Cauchari, Susques. Mendoza: La Carpa. Neuquén: Auca Mahuida, Chos Malal, Riscos Alto. Río Negro. Salta: Los Andes, Vega Cortadera. Mammalia—Rodentia—Cricetidae—*Abrothrix hirta*, *Abrothrix olivacea*, *Akodon albiventer*, *Akodon caenosus*, *Akodon inescatus*, *Eligmodontia* sp., *Eligmodontia hirtipes*, *Eligmodontia typus*, *Eligmodontia puerulus*, *Graomys griseoflavus*, *Reithrodon auritus*. Lareschi *et al.* (2010), Sanchez & Lareschi (2013).

***Hectopsylla (Hectopsylla) pascuali* Beaucournu & Alcover, 1990**

FMR (MNHN). Argentina—Neuquén: Arroyo Chapelco. Mammalia—Rodentia—Cricetidae—*Chelemys macronyx*. Argentina-Santa Cruz.

***Hectopsylla (Hectopsylla) psittaci* Frauenfeld, 1860**

Lost. Chile—St. Jago: “tschorsi”. Brazil; Chile; Peru; United States of America; Great Britain, Argentina—Buenos Aires. La Rioja. Tucumán. Aves—Passeriformes—Hirundinidae—*Alopochelidon fuscata*, *Pygochelidon cyanoleuca*. Piciformes—Picidae—*Colaptes campestroides*. Psittaciformes—Psittacidae—*Cyanoliseus patagonus*. Mammalia—Chiroptera—Molossidae—*Eumops perotis*.

***Hectopsylla (Hectopsylla) stomis* Jordan, 1925**

NHM. Argentina—Buenos Aires: Cañada Mariano. “Birds”. Argentina—Buenos Aires: Bahía Blanca. La Pampa: Victoria. Mendoza: La Paz, San Rafael. Salta. Santiago del Estero. “Patagonia”. Mammalia—Rodentia—Chinchillidae—*Lagostomus maximus*. Caviidae—*Microcavia australis*. Cricetidae—*Graomys griseoflavus*.

***Hectopsylla narium* Kutzscher, 2007**

DEI. Argentina—Río Negro: El Cóndor near Viedma. Aves—Psittaciformes—Psittacidae—*Cyanoliseus patagonus patagonus*. Aves—Tytonidae—nest from *Tyto alba tuidara*. Hirundinidae—*Progne elegans*. Blank *et al.* (2007).

***Hectopsylla (Rhynchopsyllus) pulex* (Haller, 1880)**

Lost. Brazil. Mammalia—Chiroptera—Molossidae—*Molossus* sp. Southern U.S.A. to Argentina. Argentina—Buenos Aires: Ballester, Buenos Aires, La Plata. Catamarca: El Rodeo. La Pampa. Salta: Parque Nacional El Rey, Piquirenda Viejo. Tucumán: San Miguel de Tucumán. Mammalia—Chiroptera—Molossidae—*Eumops perotis*, *Tadarida brasiliensis*. Vespertilionidae—*Myotis nigricans*.

***Tunga penetrans* (Linné, 1758)**

Lost. America. Mammalia—Primates—Hominidae—*Homo sapiens*. Neotropical and Etiopic Regions. In the Neotropics: Bolivia; Brasil; Colombia; Chile; Ecuador; French Guiana; Paraguay; Peru; Surinam; Trinidad; Venezuela; Argentina—Buenos Aires: El Destino, Juan Gerónimo. Chaco. Corrientes. Formosa. Jujuy. Misiones. Salta. Santa Fe. Santiago del Estero. Tucumán. Mammalia—Perissodactyla—Tapiridae—*Tapirus terrestris*.

Primates—Hominidae—*Homo sapiens*. Xenarthra—Dasypodidae—*Dasypus hybridus*, *Chaetophractus villosus*. Domestic animals (dogs and pigs). Ezquiaga *et al.* (2008; 2015).

***Tunga perforans* Ezquiaga, Linardi, De Avelar & Lareschi, 2015**

MLP. Argentina—Chubut: Cabo Raso. Mammalia—Xenarthra—Dasypodidae—*Zaedyus pichiy*. Argentina—Chubut: Cabo Raso, La Madrugada. Mendoza: Luján de Cuyo. San Juan: Usno. Mammalia: Xenarthra—Dasypodidae—*Chaetophractus vellerosus*, *Zaedyus pichiy*. Ezquiaga *et al.* (2015).

***Tunga terasma* Jordan, 1937**

NHM. Brazil—Goiás: Annapolis. Mammalia—Xenarthra—Dasypodidae—*Cabassous unicinctus*. Brazil; Paraguay; Argentina—Buenos Aires: Coronel Suarez. Córdoba: Santo Domingo. Mammalia: Rodentia—Caviidae—*Cavia* sp. Xenarthra—Dasypodidae—*Chaetophractus vellerosus*, *Chaetophractus villosus*. Ezquiaga *et al.* (2015).

**Family Rhopalopsyllidae**

***Delostichus incisus* Beaucournu & Torres-Mura, 1987**

FMR (MNHN). Argentina—San Juan: Parque Nacional Ischigualasto, Valle Fértil. Mammalia—Rodentia—Octodontidae—*Octomys mimax*.

***Delostichus octomyos* Jordan, 1942**

NHM. Argentina—Mendoza: Las Catitas. Mammalia—Rodentia—Octodontidae—*Typanoctomys barrerae*. Chile; Argentina—Mendoza: La Paz, Las Catitas, Malargüe, Puesto La Carpa. San Luis. Mammalia—Rodentia—Caviidae—*Dolichotis patagonum*, *Microcavia australis*. Cricetidae—*Graomys griseoflavus*.

***Delostichus talis* (Jordan, 1936)**

NHM. Argentina—Río Negro: Fortín Uno. Mammalia—Rodentia—Caviidae—*Microcavia australis*. Argentina—Buenos Aires: Estancia La Cristina, La Plata. Chubut: Depto. Ameghino. La Pampa: El Odre, Santa Rosa. Mendoza: La Paz, Las Catitas, Malargüe, Puesto La Carpa, Puesto Pugin, San Rafael. Río Negro: Fortín Uno. San Juan: Las Casuarinas. Mammalia—Carnivora—Canidae—*Lycalopex griseus*, *Lycalopex gymnocercus*. Mephitidae—*Conepatus chinga*. Rodentia—Caviidae—*Dolichotis patagonum*, *Galea musteloides*. Cricetidae—*Graomys griseoflavus*. Muridae—*Rattus rattus*. Octodontidae—*Typanoctomys barrerae*.

***Ectinorus (Ectinorus) barrerae* Jordan, 1939**

NHM. Argentina—San Juan: Las Casuarinas. Mammalia—Rodentia—Caviidae—*Galea musteloides*. Argentina—Buenos Aires: Las Flores. Mendoza: Las Catitas, Malargüe, Ñacuñán Biosphere Reserve, Puesto La Carpa, Puesto Pugin, San Rafael, Santa Rosa. Río Negro: Fortín Uno. Mammalia—Carnivora—Canidae—*Lycalopex griseus*. Mephitidae—*Conepatus chinga*. Rodentia—Caviidae—*Galea musteloides*, *Microcavia australis*. Cricetidae—*Akodon azarae*, *Akodon dolores*, *Graomys griseoflavus*. Octodontidae—*Octomys mimax*, *Typanoctomys barrerae*. Lareschi *et al.* (2004).

***Ectinorus (Ectinorus) budini* (Jordan & Rothschild, 1923)**

NHM. Argentina—Catamarca: Otro Cerro. Mammalia—Rodentia—Cricetidae—*Andinomys edax*.

***Ectinorus (Ectinorus) disjugis* Jordan, 1942**

NHM. Argentina—Jujuy: El Chaguaral. Mammalia—Rodentia—Ctenomyidae—*Ctenomys juris*. Peru; Argentina—Jujuy.

***Ectinorus (Ectinorus) hapalus* (Jordan, 1942)**

NHM. Argentina—Mendoza: Santa Rosa. Mammalia—Rodentia—Cricetidae—*Graomys griseoflavus*. Argentina—Buenos Aires: Chivilcoy. Chubut: Estancia El Maitén, Puerto Madryn. Mendoza: Puesto La Carpa,

Santa Rosa. Neuquén: Domuyo, Aguas Calientes. Santa Cruz: Pali Aike, Puerto Santa Cruz. San Luis. Mammalia—Rodentia—Cricetidae—*Abrothrix hirta*, *Abrothrix olivacea*, *Akodon azarae*, *Graomys griseoflavus*. Sanchez & Lareschi (2013), Sanchez & Lareschi (2014).

***Ectinorus (Ectinorus) ixanus (Jordan, 1942)***

NHM. Argentina—Mendoza: San Rafael. Mammalia—Rodentia—Caviidae—*Microcavia australis*. Chile; Argentina—Chubut: Arroyo Pescado, Cañadón de la Madera, Tepuel, Dique Ameghino, Gorro Frigio, El Capricho, Cushamen, Laguna de Aleusco, Puerto Madryn. Santa Cruz: Pali Aike, Puerto Santa Cruz. Mammalia—Carnivora—Canidae—*Lycalopex griseus*. Rodentia—Cricetidae—*Abrothrix hirta*, *Abrothrix olivacea*, *Graomys griseoflavus*, *Eligmodontia morgani*, *Phyllotis xanthopygus*, *Reithrodon auritus*. Caviidae—*Microcavia australis*. Sanchez & Lareschi (2013; 2014).

***Ectinorus (Ectinorus) lareschiae Hastriter & Sage, 2009***

MACN. Argentina—Neuquén: Zapala, Parque Nacional Laguna Blanca. Mammalia—Rodentia—Cricetidae—*Reithrodon auritus*. Mammalia—Rodentia—Cricetidae—*Phyllotis xanthopygus*. Hastriter & Sage (2009)

***Ectinorus (Ectinorus) levipes (Jordan & Rothschild, 1923)***

NHM. Argentina—Chubut: Cholila. Mammalia—Rodentia—Ctenomyidae—*Ctenomys haigi*. Chile; Argentina—Chubut: Carhué Niyeu, La Maroma. Neuquén. Río Negro: El Bolsón. Mammalia—Rodentia—Cricetidae—*Abrothrix hirta*, *Abrothrix olivacea*, *Akodon iniscatus*, *Akodon* sp., *Euneomys chinchilloides*, *Eligmodontia morgani*, *Phyllotis xanthopygus*, *Reithrodon auritus*. Sanchez & Lareschi (2013).

***Ectinorus (Ectinorus) martini Lewis, 1976***

NMNH. Chile—Malleco: Parque Nahuelbuta. Mammalia—Rodentia—Octodontidae—*Aconaemys fuscus*. Chile; Argentina—Neuquén. Mammalia—Rodentia—Cricetidae—*Abrothrix olivacea*, *Akodon* sp., *Chelemys macronyx*, *Geoxus valdivianus*, *Irenomys tarsalis*, *Oligoryzomys longicaudatus*.

***Ectinorus (Ectinorus) mondacai Hastriter, 2001***

NMNH. Chile—Ñuble: Chillán Springs. Mammalia—Rodentia—Cricetidae—*Akodon fuscus*. Chile; Argentina—Neuquén: Arroyo Chapelco. Mammalia—Rodentia—Cricetidae—*Chelemys macronyx*.

***Ectinorus (Ectinorus) morenoi Hastriter & Sage, 2009***

MACN. Argentina—Neuquén: Zapala, Parque Nacional Laguna Blanca. Mammalia—Didelphimorphia—*Thylamys pallidior*. Mammalia—Rodentia—Cricetidae—*Abrothrix hirta*, *Phyllotis xanthopygus*. Hastriter & Sage (2009).

***Ectinorus (Ectinorus) nomisis Smit, 1987***

NHM. Argentina—Jujuy: Humahuaca. Mammalia—Rodentia—Octodontidae—*Octodontomys gliroides*. Chile; Argentina—Jujuy. Beaucournu *et al.* (2013) suggested that *E. nomisis* is probably a subspecies of *Ectinorus simonsi* (Rothschild, 1904).

***Ectinorus (Ectinorus) pilosus Beaucournu & Castro, 2002***

FMR (MNHN). Argentina—Catamarca: Santa María. Mammalia—Rodentia—Ctenomyidae—*Ctenomys knighti*. Chile.

***Ectinorus (Ectinorus) polymerus Jordan, 1942***

NHM. Argentina—Mendoza: Las Catitas. Mammalia—Rodentia—Octodontidae—*Typanoctomys barrerae*.

***Ectinorus (Ectinorus) setosicornis Jordan, 1942***

NHM. Argentina—Mendoza: Los Molles. Mammalia—Rodentia—Chinchillidae—*Lagidium viscacia viatorum*. Chile; Argentina—Mendoza: Malargüe. Mammalia—Rodentia—Chinchillidae—*Lagidium* sp.

***Ectinorus (Ectinorus) spiculatus* Hastriter & Sage, 2011**

MACN. Argentina—Neuquén: Estancia Llamuco. Mammalia—Rodentia—Cricetidae—*Phyllotis xanthopygus*. Argentina—Neuquén: Domuyo, Aguas Calientes, Parque Nacional Laguna Blanca. Mammalia—Rodentia—Cricetidae—*Abrothrix hirta*, *Abrothrix olivacea*, *Akodon iniscatus*. Hastriter & Sage (2011), Sanchez & Lareschi (2013).

***Ectinorus (Ectinorus) trionyx* Jordan, 1942**

NHM. Argentina—Mendoza: Santa Rosa. Mammalia—Rodentia—Caviidae—*Microcavia australis*. Argentina—Mendoza: Las Catitas, Malargüe. San Luis. Mammalia—Rodentia—Octodontidae—*Tympoanoctomys barrerae*.

***Ectinorus (Ichyonus) onychius* (Jordan & Rothschild, 1923)**

NHM. Argentina—Chubut: Cholila. Mammalia—Rodentia—Ctenomyidae—*Ctenomys haigi*. Chile; Argentina—Chubut: Puerto Madryn. Mendoza: Puesto Pugin, Algarrobito. Neuquén: Curruhué Chico, Lago Norquínco, Laguna Blanca. Río Negro: San Carlos de Bariloche, El Bolsón, Lagos Perito Moreno and Escondido, Península de San Pedro, Somuncurá. Tierra del Fuego, Antártida e Islas del Atlántico Sur: Estancia Viamonte. Mammalia—Rodentia—Cricetidae—*Abrothrix hirta*, *Abrothrix olivacea*, *Akodon dolores*, *Akodon iniscatus*, *Euneomys chinchilloides*, *Loxodontomys micropus*, *Oligoryzomys longicaudatus*, *Phyllotis xanthopygus*. Muridae—*Rattus norvegicus*, *Rattus* sp. Hastriter & Sage (2011) elevate to species level *E. (I.) onychius onychius*. Sanchez & Lareschi (2013).

***Ectinorus (Panallius) galeanus* (Jordan, 1939)**

NHM. Argentina—San Juan: Las Casuarinas. Mammalia—Rodentia—Caviidae—*Galea musteloides*. Argentina—Buenos Aires: Estancia La Cristina, Las Flores, Sierra de la Ventana. Mendoza: La Paz, Malargüe, Puesto Pugin, San Rafael, Santa Rosa. Neuquén: Calle América del Sur. Río Negro: Fortín Uno. Santiago del Estero: El Ojito, El Quemado, Las Carpas. San Luis: Quines. Aves—Strigiformes—Strigidae—*Athene cunicularia*. Mammalia—Rodentia—Caviidae—*Galea musteloides*, *Microcavia australis*. Cricetidae—*Akodon dolores*, *Akodon spegazzinii*, *Graomys griseoflavus*. Chinchillidae—*Lagostomus maximus*. Sanchez & Lareschi (2013).

***Eritranis andricus* (Jordan, 1939)**

NHM. Argentina—San Juan: Las Casuarinas. Mammalia—Rodentia—Caviidae—*Galea musteloides*. Argentina—Mendoza: Puesto La Carpa, Santa Rosa. San Luis. Mammalia—Carnivora—Canidae—*Cerdocyon thous*. Rodentia—Caviidae—*Galea musteloides*, *Microcavia australis*.

***Listronius fortis* (Jordan & Rothschild, 1923)**

NHM. Argentina—Chubut: Cholila. Mammalia—Rodentia—Cricetidae—*Akodon iniscatus*. Chile; Argentina—Río Negro: El Bolsón. Mammalia—Rodentia—Cricetidae—*Abrothrix olivacea*, *Akodon iniscatus*.

***Listronius robertsonianus* (Jordan, 1938)**

NHM. Argentina—Tierra del Fuego, Antártida e Islas del Atlántico Sur: Isla Celebroña. Aves—Sphenisciformes—Spheniscidae—*Spheniscus magellanicus* (burrow) or Procellariiformes—Procellariidae—*Procellaria aequinoctialis* (burrow). Aves—Sphenisciformes—Spheniscidae—*Eudyptes chrysocome*.

***Listronius ulus* (Jordan & Rothschild, 1923)**

NHM. Argentina—Chubut: Leleque. Mammalia—Rodentia—Cricetidae—*Abrothrix hirta*. Chile.

***Parapsyllus longicornis* (Enderlein, 1901)**

ZMB. Indian Ocean—Saint. Paul Island NE of Kerguelen. Aves—Sphenisciformes—Spheniscidae—*Eudyptes chrysocome*. Chile; Indian Ocean Islands (Amsterdam and Saint Paul Islands); New Zealand; Argentina—Santa Cruz: Punta Dungeness. Tierra del Fuego, Antártida e Islas del Atlántico Sur: Islas Malvinas. Aves—Passeriformes—Turdidae—*Turdus falcklandii*. Procellariiformes—Diomedeidae—*Thalassarche melanophrys*. Sphenisciformes—Spheniscidae—*Pygoscelis papua*, *Spheniscus magellanicus*.

***Parapsyllus magellanicus magellanicus* Jordan, 1938**

NHM. Argentina—Tierra del Fuego, Antártida e Islas del Atlántico Sur: Isla Celebroña (Islas Malvinas). Aves—Sphenisciformes—Spheniscidae—*Spheniscus magellanicus*. Nueva Zelanda; Argentina—Tierra del Fuego, Antártida e Islas del Atlántico Sur: Georgia del Sur (Isla Pájaro), Isla de Goicoechea (Archipiélago de las Islas Malvinas), Río Grande. Aves—Procellariiformes—Procellariidae—*Halobaena caerulea, Pachyptila belcheri*.

***Polygenis (Neopolygenis) atopus* (Jordan & Rothschild, 1922)**

NHM. Brazil—Santa Catarina: Humboldt, Joinville. Mammalia—Didelphimorphia—Didelphidae—*Didelphis aurita*. Bolivia; Brazil; Panama; Uruguay; Venezuela; Argentina—Buenos Aires: Delta del Paraná, Estancia La Cristina, La Balandra, Los Yngleses, O'Higgins, Pergamino, Punta Lara, Sierra de la Ventana, Ramallo, San Nicolás. Córdoba: Dean Funes, Quilino. Mammalia—Didelphimorphia—Didelphidae—*Didelphis albiventris, Didelphis sp., Lutreolina crassicaudata*. Rodentia—Caviidae—*Cavia aperea, Galea musteloides, Microcavia australis*. FMR (MNHM). Argentina—La Pampa: Santa Rosa, Campus of the Universidad Nacional de La Pampa. Mammalia—Rodentia—Ctenomyidae—*Ctenomys azarae*.

## **Family Pygiopsyllidae**

### ***Ctenidiosomus austrinus* López-Berrizbeitia, Hastriter & Díaz, 2015**

CML. Argentina—Salta Province: ~15 km W Escoipe, on Provincial road No. 33. Mammalia—Rodentia—Cricetidae—*Phyllotis osilae*.

## **Discussion**

At the present, 127 species and subspecies belonging to eleven different families are recorded for Argentina. Of these, four genera (*Adoratopsylla*, *Cleopsylla*, *Ctenidiosomus*, and *Nonnapsylla*) and six species and subspecies (*Adoratopsylla (Adoratopsylla) antiquorum antiquorum*, *Agastopsylla pearsoni*, *Polygenis (Polygenis) roberti beebei*, *Plocopsylla (Plocopsylla) silewi*, *Plocopsylla (Plocopsylla) wilesi* and *Tunga terasma*) are added to previous lists for Argentina (Autino & Lareschi, 1998; Beaucournu & Castro, 2003). *Dasypssyllus (Dasypssyllus) gallinulae* (Dale, 1878) is not included in the list, as Hastriter & Schlatter (2006) assert that the American distribution of the species does not include Argentina. *Listronius plesiomorphus* Beaucournu & Gallardo, 1991 is also excluded. Beaucournu and Castro (2003) stated that the type locality of this species is situated in the region between Argentina and Chile, and there is not another record of *L. plesiomorphus* from Argentina. The following 42 species and subspecies are considered to be endemic: *Alectopsylla unisetosa*, *Chiliopsylla allophyla tonnii*, *Ctenidiosomus austrinus*, *Dasypssyllus (Avesopsylla) lasius lasius*, *Delostichus incises*, *Delostichus talis*, *Ectinorus (Ectinorus) barrerae*, *Ectinorus (Ectinorus) budini*, *Ectinorus (Ectinorus) hapalus*, *Ectinorus (Ectinorus) lareschiae*, *Ectinorus (Ectinorus) morenoi*, *Ectinorus (Ectinorus) pilosus*, *Ectinorus (Ectinorus) polymerus*, *Ectinorus (Ectinorus) spiculatus*, *Ectinorus (Ectinorus) trionyx*, *Ectinorus (Panallius) galeanus*, *Eritranis andricus*, *Hectopsylla (Hectopsylla) broscus*, *Hectopsylla (Hectopsylla) gracilis*, *Hectopsylla (Hectopsylla) pascuali*, *Hectopsylla (Hectopsylla) stomis*, *Hectopsylla narium*, *Listronius robertsianus*, *Malacopsylla grossiventris*, *Neotyphloceras crackensis*, *Neotyphloceras pardinasii*, *Phthiropsylla agenoris*, *Plocopsylla (Plocopsylla) angusticeps*, *Plocopsylla (Plocopsylla) linardii*, *Plocopsylla (Schrammapsylla) chirisi*, *Plocopsylla (Schrammapsylla) kasagonaga*, *Plocopsylla (Schrammapsylla) traubi*, *Polygenis (Neopolygenis) puelche*, *Polygenis (Neopolygenis) pygaerus*, *Rhopalopsyllus lutzi cleophontis*, *Sphinctopsylla mars*, *Tiamastus helicis*, *Tiamastus palpalis*, *Tiamastus subtilis*, *Tiamastus tortuosus*, *Tiarapsylla argentina* and *Tunga perforans*. In addition, new species for the science included herein have been described recently on the basis of specimens collected from Argentina (*Ctenidiosomus austrinus*, *Ectinorus (Ectinorus) lareschiae*, *Ectinorus (Ectinorus) spiculatus*, *Ectinorus (Ectinorus) morenoi*, *Hectopsylla narium*, *Plocopsylla (Plocopsylla) linardii*, *Neotyphloceras crackensis*, *Neotyphloceras pardinasii*, and *Tunga perforans*).

The new information provided herein contributes to the knowledge of the fleas from Argentina, necessary to a good understanding of their role as parasites themselves and vectors of zoonotic importance in the country.

## Acknowledgements

We thank Carlos Galliari (CEPAVE, Argentina) for updating the taxonomy of the host species, and Jean-Claude Beaucournu (Laboratoire de Parasitologie et Zoologie Appliquée, Faculté de Médecine and Institut de Parasitologie de l' Ouest, France) for his commentary, which improved the manuscript.
