(*) Figure 2.B

Table 1: Complete dataset of the identified foresets and erosional surfaces bounding foreset packages. Lenght (m), height (m) and dip angle (°) were measured in each case.

Table 2 - Resume		
Inclined beds (n=121)	Lenght (m)	Height (m)
Mean	10.8	1.3
Maximum	40	3
Minimum	2	0.2
Erosional surfaces (n=12)		
Mean	59.5	3.1
Maximum	112	5
Minimum	27	2

Table 2: Average, maximum and minimum values measured for foresets and erosional surfaces.

Table 3 - Erosional surfaces	
Number	Lenght (m)
1	80
2	68
3	112
4	81
5	36
6	27
7	80
8	37
9	32
10	52
11	64
12	45
Mean	59.5
Max	112.0
Min	27.0

Table 3: Lenght values ofthe twelve erosional surfaces bounding foreset packages.

Table 4 - Foreset packages	
Interval	Spacing (m)
1-2	30
2-3	10
3-4	40
4-5	35
5-6	40
6-7	35
7-8	20
8-9	75
9-10	20
10-11	10
11-12	40
Mean	32.3
Max	75.0
Min	10.0

Table 4: Spacing between successive erosional surfaces.
