

Errata

The authors regret that errors appeared in the article, "Physical and Genetic Map of *Epinotia aporema* Granulovirus Genome," *Virus Genes* 25, 329–341, 2002.

In **Figure 4** (*Parity plot analysis of EpapGV ORFs*) on page 338, the labels corresponding to the

ie-1 and *Ld130* genes are reversed. These data are presented correctly in **Figure 2** (*Linearised physical map of EpapGV genome*) on page 334 and **Table 3** (*EpapGV ORFs*) on page 337.
